New and Pending Accounting Standards

In January 2016, the IASB issued IFRS 16, “Leases” and amended IAS 17 “Leases”. IFRS 16 specifies how to recognize, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring the recognition of assets and liabilities for all leases, unless the lease term is 12 months or less or the underlying asset has a low value. Lessor accounting however remains largely unchanged from IAS 17 and the distinction between operating and finance leases is retained. IAS 17, as revised, now prescribes the accounting policies and disclosures applicable to leases, both for lessees and lessors. IFRS 16 will be applied by the Company on January 1, 2019 and the Company is currently evaluating the impact of the standard on its financial statements.
